

# Installation Silfix Silicone Sealant LMN

The LMN Low Modulus Clear Silicone Sealant remains permanently elastic to ensure flexibility and to provide adequate give between Roofing Sheets.

Hodgson Silfix provides excellent adhesion on steel Roofing Sheets, providing an easy way to ensure any gaps or joins are fully waterproofed and secure. Hodgson Silfix LMN resists temperatures from -40 C to 200 C, making it suitable for use in direct sunlight and cold weather alike.

Silicone sealant is one of our many Roofing Accessories that will provide the exact finish you need. Containing 2-Butanone oxime, Hodgson Silfix has a clear texture and provided in 310ml form. Due to its temperature resistance properties, Silicone Sealant is resistant to many things including UV light, rain, snow, as well as many chemicals that might encounter it.

## Silfix Silicone Sealant LMN features:

- Virtually odourless and neutral curing
- Easy to apply with excellent adhesion
- UV resistant
- Low modulus, remains elastic after curing
- For use on all treated wood, metal, glass and PVC materials
- Application to moving joints in construction materials
