

Foam Fillers

To fit 41/1000 Tile Form Profile

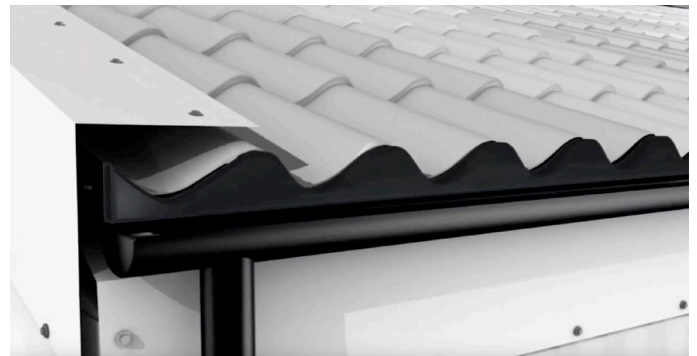

A pair of polyurethane Foam Fillers designed to close off the end of Tile Form Sheets and prevent the elements from getting in.

The eaves Foam Fillers fit between the final Purlin of your building and the Roofing Sheets, with the other half fitting at the other end between the Sheet and the Flashing used to seal of the roof.

Roofing Sheets and Foam Fillers

Our Tile Form Profile Fillers can be held in place with silicone sealant, if necessary, providing further protection for your completed roofing project. Measuring one-metre in length and manufactured from polyurethane, our Tile Form Foam Fillers are part of our wider range of Roofing Sheets and Fixings.
