

Screws To Heavy Steel With 19mm Bonded Washer

Cladco TEK Screws are self-drilling and designed for fixing Sheets to heavy steel. The TEK Screws have a 5/16 inch hexagonal head with 19mm bonded sealing washer to ensure they are watertight and secure.

TEK Screws For Heavy Steel

Self-drilling TEK Screws have a 5/16 inch hexagonal head for attaching Sheets to heavy section steel Purlins. Under the Screw head is a stainless steel washer and bonded neoprene pad to create a seal with the Sheet. It is vital to use the correct TEK Screws for the correct Sheets and Purlins; if you're unsure then we can help point you in the right direction.

For any help and advice, please consult our FAQs or contact us directly.
