

# Screws To Wood 130mm with BAZ Washer

Cladco TEK type, self-tapping 130mm Screws to Wood are designed to fix Steel Corrugated Profiled Sheeting to Timber Purlins through the highest part of the Profile.

Carbon Steel 130mm Wood Screws feature an 8mm hex head and a rubber BAZ seal with stainless steel washer to provide protection from water intrusion through the point of fixing.

## TEK Screws & Timber Roofing Screws

Securing Cladco 130mm Screws is easy without the need to pre-drill, due to their TEK type, self-drilling design. Featuring an 8mm hex head, we recommend using Cladco TEK Screw Socket Driver Tool to fix these Screws through Corrugated Profiled Sheets into Timber Purlins.

SPECIFICATIONS
