

Z Purlins Sleeve 175mm

Our types of metal purlins are manufactured from 1.8mm thick Z39 structural grade galvanised steel. Used to join 2 of our 175mm Z purlins together, the types of metal purlins used for sleeves are 550mm long and designed to fit perfectly on the end of the Z purlins.

The Z purlin sleeves used alongside our Z purlins system will give you a lighter, stronger and cheaper way to support your roof sheets with ease of handling for on-site installations.

Benefits of our Types of Metal Purlins:

- Made from structural grade Z39 galvanized steel, 1.8mm in thickness for maximum strength and long life
- Independently tested to current CE EN 14782 requirements.

SPECIFICATIONS	
Length	550mm
Thickness	175mm
Width	1.8mm

PLEASE NOTE - Extra care should always be taken when handling metal sheets and flashings we advise using the correct type of Glove when handling or moving metal sheets and flashings.
