

LIGHTWEIGHT TARPAULIN

80gsm

Lightweight, waterproof and easy to handle, our 80gsm Tarpaulins make the perfect temporary covering for applications both inside and outside the home.

Each Lightweight Tarp is manufactured from tough low-density polyethylene which is then laminated on both sides with high-density polyethylene.

Popularly used to protect garden furniture, building materials, wood stacks and more, these Tarpaulins feature 12mm aluminium eyelets at every meter, paired with rope-reinforced hems - allowing for flexibility once fixed in place. Our Lightweight Tarpaulins are also rotproof, shrink-proof, UV protected and remain flexible even in minus-zero temperatures.

Benefits of Lightweight Waterproof Tarpaulin:

- Available in 5 sizes*
- 80gsm
- Suitable for a variety of temporary coverings
- 8x8 Weave Count
- HDPE weave with LDPE lamination
- Lightweight and easy to handle

Coverage	2.16m ² (1.2m x 1.8m), 18.9m ² (3.5m x 5.4m), 37.8m ² (5.4m x 7m), 77m ² (7m x 11m), 126m ² (9m x 14m)

*All our Tarpaulin sheets are cut sizes, which is industry standard terminology for the size of the material before it is formed into a tarpaulin. This means that when seams and hems are taken into consideration, the final size can be up to 30cm-45cms shorter.

PLEASE NOTE -The bigger the Tarpaulin, the more support it will require. Always ensure that the Tarpaulin is suitably supported according to its size.
