

Nordic Ridge Flashing PVC

Cladco's unique Nordic ridge flashings will add a stylish finish to any building while protecting it from water intrusion. This style of flashing features a minimalist profile which will complement the style of our box profile, tile Form and corrugated sheets.

Metal Roof Ridge Flashings for your Roofing

Our Nordic ridge flashing are made in lengths of 3m and is available in our full range of materials and coatings to match or contrast your roofing sheets.

Each wing is approximately 195mm and angled so internally achieving 130 degrees. Other angles can be specified using our custom-made flashings service.

We can fold most flashing shapes to customers' requirements in 3-metre lengths at short notice.

Please note: The 195 x 195 flashings give a coverage of 195 x 195 due to the 8mm welt.
