

35MM WOOD SCREWS

STANDING SEAM RANGE

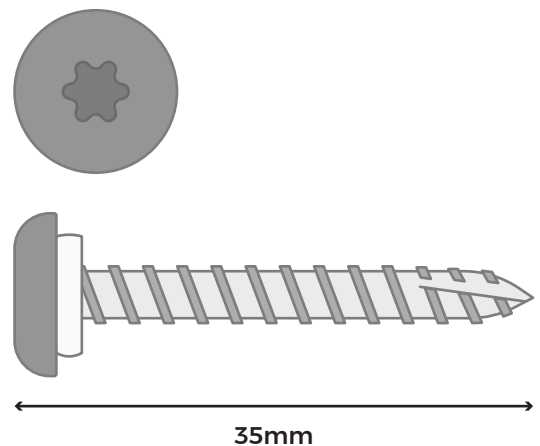

Cladco Ruspert® low-profile wood screws (6.3 × 35 mm) are designed for fixing standing seam sheets to timber substrates and for joining two sheet runs lengthways. The multi-layer Ruspert® coating provides enhanced corrosion resistance while keeping costs competitive. Supplied in boxes of 100 with colour-matched PVC washers and a driver bit for a tidy, low-profile finish.

Pack	100 Per Pack + Driver Bit

Please Note: Images are for illustration purposes only. Actual products may vary slightly from those shown.

MATERIALS

Steel screws with a multi-layer Ruspert® coating for weathering and corrosion protection. The low-profile head and colour-matched PVC washer help deliver a neat finish.

VARIATIONS

Available in four colours to match Cladco standing seam sheets and flashings, helping fixings blend in across ridges, verges and eaves.

ACCESSORIES

Each pack includes a driver bit for straightforward installation.

EASY TO USE

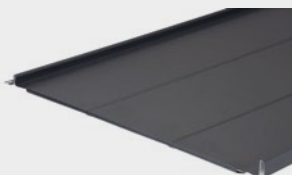

At 6.3 x 35 mm, ideal for fixing sheets to timber substrates and for joining two sheet runs lengthways. Quick to install with the included driver bit, and the low-profile head lets trims sit flat.

LONG-LASTING

The Ruspert® coating provides strong, long-term corrosion resistance at a competitive price, making these a cost-effective alternative to stainless steel. For coastal or high-salinity sites, specify stainless steel fixings.
