

20MM STAINLESS STEEL STICHING SCREWS STANDING SEAM RANGE

Cladco stainless steel low-profile stitching screws are engineered for standing seam sheet installations. At 6.3 x 20 mm, they're ideal for securing trims and flashings, delivering a neat, professional finish. The low-profile head and colour-matched PVC washer help the fixing blend in for a clean, consistent look.

MATERIALS

Made from stainless steel for strength and rust resistance. The low-profile head sits neatly on thin-gauge metal, delivering secure stitching for trims and flashings in standing seam systems.

VARIATIONS

Available in four colours to match standing seam sheets and flashings. The colour-matched PVC washer helps each fixing blend in for a consistent, professional finish.

ACCESSORIES

Each pack includes a driver bit for straightforward installation.

EASY TO USE

Quick to install with the included driver bit. Low-profile heads let trims sit flat, and fixings can be adjusted or removed during alignment if needed.

LONG-LASTING

Stainless steel offers excellent corrosion resistance, while the PVC washer helps limit water ingress at the fixing point. A dependable choice for coastal or high-moisture locations.
