

35MM STAINLESS STEEL WOOD SCREWS STANDING SEAM RANGE

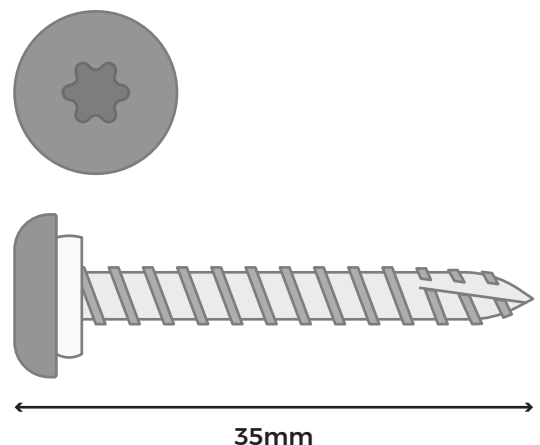

Cladco stainless steel low-profile wood screws (6.3 x 35 mm) are designed for securing standing seam sheets at lengthways joins or for fixing directly into timber substrates. Made from stainless steel, they offer superior corrosion resistance and long-lasting durability, making them ideal for harsh environments, including coastal or high-moisture areas.

MATERIALS

Manufactured from stainless steel for dependable strength and rust resistance. The low-profile head sits neatly on thin-gauge metal for secure stitching into timber.

VARIATIONS

Available in four colours to match standing seam sheets and flashings. Each screw includes a colour-matched PVC washer for a clean, consistent finish.

ACCESSORIES

Pairs with Cladco standing seam accessories, including ridge and hip caps, verge and eaves trims, valleys, clips and closure pieces. Supplied with a driver bit and PVC washers to speed installation and keep details tidy.

EASY TO USE

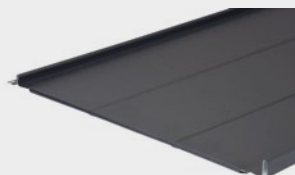

At 6.3 x 35 mm, ideal for fixing standing seam sheets into timber substrates or for sheet-to-sheet joins. Quick to install with the included driver bit, and the low-profile head lets trims sit flat.

LONG-LASTING

Stainless steel construction and the PVC washer's weather-resistant seal provide excellent corrosion performance. A reliable choice for coastal or high-moisture environments where long-term durability matters.
